

Morena Postgate School

It is with regret to inform you that a decision has been made to postpone our Food Fair until a later date.

It would be socially irresponsible of Postgate School to host our Food Fair given the current state of affairs with CoronaVirus.

One of our Strategic goals is People, and one thing we believe in is putting our learners first, along with our school community. We know our school community runs a lot deeper than just those who live at home with us. From all reports, the elderly are at the greatest risk of catching this virus, as well as those with a compromised immune system.

Taking a financial hit compared with putting people's health at risk is a very easy decision. *"Safety First, Safety Sam, Sam I am"*.

A huge thank you to Jen, Danny, Bee, Malissa, Larissa, Melanie, Leona, Flo, Derek, Lynley, Karen, Kelvin and everyone who has done work in preparation for our Food Fair, last year and this year. There will be an email later about the selling of food we have already purchased in an effort to recover some of the money lost.

Looking ahead, I would advise parents to make a plan in the unlikely event that the government decides to close schools. We will be discussing how we could continue learning if schools were to close. There has been NO MESSAGING from the Ministry about this. This is Postgate trying to get ahead and have a plan in place for our learners.

We apologise for any inconvenience that our decision has caused around postponing our Food Fair.

Have an awesome day and continue to make healthy choices for you and your family.

Take care
