

Ahiahi marie

Man, what a cracker of a day!

It was fantastic to catch up with over 150 families today. Your positivity and upbeat nature was awesome food for our soul.

Special thanks to Kelvin and Chris for their amazing dedication and commitment to our school. Poor Kelvin had the toughest job and he handled it like a stormtrooper with no mask!

The devices that have been loaned by our school are for learning only. When they are returned they will reconnect with our system, Network for Learning, and we receive a report on sites visited. Please stress to your child that the device is for learning.

It has been great to hear from parents about the top-notch work our staff has been doing. If you could also feed this back to your child's teacher/teacher aide; it would be greatly appreciated.

We have a wonderful staff who are fully committed to your child/ren; this is when you know you have people who care for your child/ren.

It is important to let me know if you do not hear from your teacher. Holidays start on Monday, so learning is still happening today, tomorrow and Friday. Learning starts again on Wednesday 15th April, at 9am! It is vital we keep our children involved in the learning process

Please remember to stay in your bubble. Whoever is with you after midnight, they are in your bubble. If we are to save lives we must follow the advice given. Please think that you have the virus and you do not want to pass it onto others; this is the mindset we must have.

Take care of your bubble and if you need anything from us, please reach out.

Catch up soon and remember, stay safe - isolate!
